CHARLIE GOODRICH DISLOCATES ARM BUT MANY OTHERS VOLUNTEER TO WRESTLE CHAMPION BUZUKOS MONDAY

Charlie Goodrich, local wrestler, is the champion of hard luck. Last night, six days before his match with Buzukos, he threw his left shoulder out of place practicing at the Y. M. C. A. It also prevents him from returning to his regular job as "dinky man" at the Cole shaft. It also shuts him off from pursuing his former trap, that of bookbinder. Goodrich appears in for a good, long vacation. Dr. Reiser, who attended him last night, said the wrestler's shoulder was not only dislocated, but many of the ligaments were torn loose, and that it will be months before he is recovered.

The match, however, must go on. When news that Goodrich was out spread about town last night no less than half a dozen wrestlers, some with real good records, rushed to the match maker, anxious to challenge the world's welterweight of San Francisco.

Mother Praises Remedy That Relieved Her Baby

DR. CALDWELL'S SYRUP PEPIN IS A DEPENDABLE FAMILY LAXATIVE.

Nearly all the sickness incident to a baby's life is due to constipation, or inaction of the bowels. At the first indication of irregularity in this important function, relief should be afforded promptly. A mild laxative should be administered to gently carry off the congested waste and leave the stomach and bowels free to perform their allotted tasks.

Of the various remedies recommended to relieve constipation, the combination of simple laxative herbs with pepsin, as prescribed by Dr. W. B. Caldwell and sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin, is the most effective. It contains no opiate or narcotic drug, is pleasant to the taste, mild and gentle in action, and quickly brings the desired relief in an easy, natural manner.

Mrs. C. J. Douglas, Mason, Ill., writes that she cannot say enough in praise of Dr. Caldwell's Syrup Pepsin as a dependable family laxative. Little Mary Eva had been badly constipated until they tried Dr. Caldwell's Syrup Pepsin, which brought the first natural relief the child had had in two weeks.

Mary Eva Douglas

Another Rich Strike IN THE CROSS-CUT OF THE

United Arizona

We have just received samples of the ore running 20 to 30 per cent copper.

Native Copper also encountered in cross-cut 90 feet from the shaft.

Stock goes on the New York Curb in a few days at higher price. May be withdrawn from sale in Bisbee at any time. Don't miss the opportunity of getting this stock at 50c share. You'll regret it if you do. Get your order in today to make sure of it.

MEXICAN PRIESTS QUOTED TO SHOW CARRANZA FAIRNESS

They Are No Longer Persecuted, According to Letters Read Before United States-Mexican Commissioners.

(By Review Leased Wire)
ATLANTIC CITY, N. J., Oct. 31.—To the evidence the Mexican commissioners are placing before the international joint commission to uphold their assertions that the Carranza government is growing in strength was added today a long category they said had been signed by 10 Roman Catholic priests resident in Mexico City who asserted that official persecution of the Church no longer is practiced.

The presentation of the cablegram and the formal repudiation by Luis Cabrera of the statement attributed to him at Washington marked today's session of the conference.

The last session of the commission before the national election will be held Thursday or Friday. The Mexican members have planned to hear President Wilson and Charles E. Hughes speak in New York and most of the attaches of the American commission will go to their homes to vote.

The date and place of the meetings after election will be determined tomorrow. The wish of a part of the commissioners to transfer the conferences to Washington is not shared by all of the men, and it is possible it may be decided to reconvene at Atlantic City.

WHY I AM FOR WILSON

By F. D. Underwood
President of the Erie Railroad

No one could fairly accuse President Wilson of playing politics in the railroad negotiations for an eight-hour day. I believe his motives were honest and that he used his best judgment in doing as he did. He did not carry the burden of the railroads or the claims of the brotherhoods as his load; he carried those of the people of the United States. Many of the Wilson laws have stabilized business, particularly the Federal Reserve and the Rural Credit Acts. We should stand for peace and work for peace, but be fully prepared to defend what we have. The fight against President Wilson has no larger aspect than an unpatriotic clamor of the "outs" for possession of the things now in the hands of the "ins."

VILLA CAPTURES CARRANZA GENERAL

(Continued From Page 1)
by an American, says conditions in Chihuahua City are very unsettled and a large number of the Carranza soldiers are deserting.

The ammunition supply is also reported to be small because of the quantities sent out with General Carlos Ozuena's column, and on the special train carrying General Maycotte's command.

The Villa movement is said to be in the general direction of Torreón and the fear of an attack by Villa upon Chihuahua City probable.

SIX AMERICANS ARE DROWNED ON MARINA

(Continued from page one.)
tion is incomplete; that some reports had come from London during the day and that the affidavits of survivors would be cabled to the department as soon as they could be taken.

So far as could be learned, the department has not been able to clear the discrepancies between Consul Frost's provisional report that the Marina had been sunk without warning by gunfire and today's unofficial dispatches from England quoting the consul and others as saying the ship was torpedoed.

It may be a week or more before the German reply is received as the submarine or submarines which made the attack will probably not return to their base or report for several days.

Discussion of the Marina and Rowanmore cases today developed the fact that the state department never has learned what punishment was imposed by Germany upon the submarine commander who sank the Sussex, although Ambassador Gerard was instructed some time ago to make inquiry on the subject. A department official said this was one of the subjects that would be taken up with the ambassador when he called before starting on the return trip to Berlin after his vacation.

WOMAN PRESS AGENT FOR BARNES' SHOWS IN WARREN DISTRICT

Emma C. Miller, the Only Woman Circus Press Agent, Tells Very Interesting Things About Modern Animal Life.

(By Emma C. Miller)
Did you ever awake at night, and watch the moonlight shining through the trees making fantastic figures on the walls, and as you gazed at these changing forms you could imagine yourself in a jungle with the cold, cruel basilisk eyes of a lion or tiger glaring at you through the semi-darkness? Wasn't it a great thrill? Just imagine being in a real jungle, with real lions, tigers, pumas and the rest of the dangerous beasts really looking at you.

When Al G. Barnes wild animal circus reaches Bisbee Nov. 11 in its thirty double-length circus cars and spreads its acres of water-proof canvas among you, you will be in jungle land; you will experience a real thrill as you hear the monster lions securely caged, roar out their delight at being once more on Terra Firma.

Imagine being right in looking distance of 350 jungle beasts, together with a herd of elephants, a caravan of camels, a school of sea lions, with hundreds of strange men and women who have learned to fondle and pet these dangerous beasts and hundreds of the finest horses, ponies and mules to be seen anywhere living right among you for a day.

And you, Mr. Business Man, did you ever stop to realize what the coming of a jungle city such as only Mr. Barnes carries, means to you?

Do you know that over \$1000 is spent with you for food supplies for these thousand animals and hundreds of people? Did you ever stop to think of the thousands of people a circus, such as Barnes Circus, brings into your city? Did you ever stop to think that all these men, women and children had to be fed that day? Did you know that there were more shoes sold on circus days than any other day in the year? Did you ever stop to think, that if it were a physical possibility for your educational faculties to gather so many wild animals together for the natural history study to the Young America, it would cost a fabulous sum? Not to say anything about the animal psychology to be gleaned from a day at the circus, where wild and domestic animals perform together, where species of animals enemies to each other are educated to live harmoniously together. Where lions, leopards, bears, monkeys, tigers and other jungle beasts are brought in contact with their dreaded enemy, fire, and work together in feats amazing and surprising.

When you hear the "Call of the Calliope" Saturday morning, November 11, please try to think of some of these things. When the vendor of pink lemonade and double-jointed peanuts calls of his wares, when the women and men in handsome costumes, some in steel cages with their wild animals, others mounted on well caparisoned horses, pass you in the mile-long free street parade at 10:00 a. m., when the six bands play the best circus music you ever heard, and make you just so anxious for one o'clock to come so you can get in to see the wonderful things these animals do. Please try to think of some of these things you have not thought about before.

"LOOK PA, HOW 'GETS-IT' WORKS!"

Lifts Your Corn Right Off. Never Fails.
"Ever in your life see a corn come out like that? Look at the true skin underneath—smooth as the palm of your hand!"

Well Now, Look at That! Off Comes That Pesky Corn as Slick as a Whistle.

The earth is blessed with the one, simple, painless, never-failing remedy that makes millions of corn-pestered people happy, and that's "GETS-IT." Apply it in 3 seconds. It dries. Some people jab and dig at their corns with knives and razors—wrap their toes in packages with bandages or sticky tape, make them red and raw with salves. Nothing like this with "GETS-IT." Your corn loosens—you lift it off. There's nothing to press on the corn or hurt. Angels couldn't ask for more. Try it tonight on any corn, callus or wart.

"GETS-IT" is sold and recommended by druggists everywhere, 25c a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill. Sold in Bisbee and recommended as the world's best corn remedy by Phelps Dodge Mercantile Co. (Advertisement.)

VITAL QUESTION IS EVOLVED IN PICTURE

"The Fall of a Nation", at the Orpheum for the Last Time Today.

"The Fall of a Nation," which will be presented for the last time at the Orpheum today, tells a vital story of international significance. A confederation of European powers decides to seize North America and annex it to Europe. A secret army of the foreign-born is raised in New York. As the great city of the North American States has few armed defenders, it is an easy task to capture it overnight.

Meanwhile 150,000 trained troops, fresh from the European war, are rapidly transported across the Atlantic with all their equipment of great guns, poison gases, liquid fire and bombs, effecting a landing, they easily vanquish the small North American army, join the foreign-born conquerors of New York, and march to Washington where they depose the President and put in his place the "Imperial Viceroy of the Provinces of North America."

While the locale of the story is in and near New York, its momentous lesson applies to any country unprepared to meet the foreign foe. At the end of the present war there will be millions of idle troops in Europe.

What new task will be set for them? Will covetous eyes be cast on the riches of the continents discovered by Columbus? Will some Emperor—like Napoleon III, who sent the French invaders into Mexico—attempt to seize a fair and wealthy portion of the New Hemisphere? Then—unless the country attacked is ready and well prepared—history will record a real tragic "Fall of a Nation."

It is against this terrible danger that Thomas Dixon, the author of the spectacle, provides an awful warning.

COPELAND JURY IS STILL DISAGREED

GALVESTON, Oct. 31.—No verdict has been reached tonight by the jury trying John Copeland, charged with the killing of Wm. Black, an anti-Catholic lecturer, at Marshall, Texas, February 3, 1915. Twice the foreman has announced that the jurors were helplessly disagreed, but the trial judge has refused to discharge them.

Arizona Ray Copper Why Buy It?

Because its 170 acres of ground adjoins and is partly surrounded by two of the great copper mines of Arizona, RAY CONSOLIDATED and RAY HERCULES.

Because geological and mineralogical conditions, as proved by mining and drilling operations, seem to indicate that the ore bodies developed in the two big mines also extend under the Arizona Ray ground, and at shallow depth.

Because of its very location, omitting any mining development, Arizona Ray appears to have a combined intrinsic and speculative valuation far above its present price, which is now about 27c per share.

Because Ray Consolidated, on one side of Arizona Ray, is now selling at about \$25.00 per share, and Ray Hercules, on the other side, sells at about \$4.00 per share.

Because these stocks sold at lower prices than Arizona Ray is offered at this time, when they were in a similar stage of development, and you failed to take opportunity by the forelock and "get aboard."

Because Arizona Ray appears to offer YOU another opportunity like the one presented to YOU by Ray Consolidated in the early days.

Because copper stocks are showing increasing activity, and copper prices will remain high for a long time, assuring a market at high prices for the "product of the company."

Because Arizona Ray is listed on two great exchanges, and YOU can always find a ready market, when YOU desire to either buy or sell.

Because within a few days' time the first drill-hole in the Arizona Ray "round promises to reach the "pay zone."

Because news that the extension of the ore body from the Hercules ground has been reached will cause very sharp price advances for Arizona Ray stock.

Because Arizona Ray is being well financed, is managed by one of the most successful copper mine developers in the West, and gives promise of making a great mine.

Because Arizona Ray appears to be YOUR BIG OPPORTUNITY.

Worth Careful Thought

Do you read the label to know whether your baking powder is made from cream of tartar or, on the other hand, from alum or phosphate?

Royal Baking Powder is made from cream of tartar, derived from grapes, and adds to the food only wholesome qualities.

Other baking powders contain alum or phosphate, both of mineral origin, and used as substitutes for cream of tartar because of their cheapness.

Never sacrifice quality and healthfulness for low price.
